Defect Report

Defect ID: REG-001
Severity: High
Priority: High
Module: Registration Form

Description:
Upon testing the registration form, the following defects were identified:

1. **Defect**: Error message not displayed for leaving the name field blank.
   Steps to Reproduce:
   1. Navigate to the registration form.
   2. Leave the name field blank.
   3. Attempt to submit the form.
   Refer screenshot: empty_name_field.png
   Actual Result: No error message is displayed, and the form submits successfully.
   Expected Result: An error message should be displayed prompting the user to enter their name.

2. **Defect**: Phone number field accepts alphabets and special characters.

   Steps to Reproduce:
   1. Navigate to the registration form.
   2. Enter alphabets or special characters in the phone number field.
   3. Attempt to submit the form.

   Actual Result: The form accepts alphabets and special characters in the phone number field.

   Expected Result: The phone number field should only accept numeric values and should display an error message for invalid input.

Defect ID: REG-002
Severity: Medium
Priority: Medium
Module: Registration Form

Description:
The password input field does not enforce the requirement of at least one capital letter. Users can submit passwords without any capital letters.

Steps to Reproduce:
1. Navigate to the registration form.
2. Enter a password without any capital letters.
3. Attempt to submit the form.

Actual Result: The form accepts the password without any capital letters.

Expected Result: The password field should enforce the requirement of at least one capital letter and display an error message if not met.

Defect ID: REG-003
Severity: Medium
Priority: Low
Module: Registration Form

Description:
The clear button functionality is not functioning properly. Clicking the clear button does not clear all input fields as expected.

Steps to Reproduce:
1. Navigate to the registration form.
2. Enter values into all input fields.
3. Click the clear button.

Actual Result: The input fields are not cleared.
Expected Result: Clicking the clear button should clear all input fields.
